

Outdoor

Width	2 & 4 m
Manufacturing Process	Flat woven
Pile Composition	Polypropylene
Backing	Precoat latex
Total height	6.1 mm
Pile weight	1580 grm/m2
Resistance of heat conduction	Tog rating 1
Suitability	Domestic & Commercial
Manufacturer Guarantee	5 years
Fire Resistance	Dfl-S1
Sound Insulation	5dB
Moth protection	Moth resistant

Care and Maintenance

Polypropylene carpets are easy to maintain and resistant to stains. Vacuum regularly, always ensure the carpet is cleaned using a high quality cleaning agent. Before re-using the carpet after any deep cleaning procedure, always ensure the carpet is completely dry and vacuum to avoid rapid re-soiling of the surface. Samples should only be used as a guide to colour matching, slight colour variation possible.
