<b>Resistance of heat conduction</b>	<b>Tog rating 1</b>
<b>Suitability</b>	<b>Domestic &amp; commercial</b>
<b>Manufacturer Guarantee</b>	<b>5 years</b>
<b>Fire Resistance</b>	<b>Dfl-S1</b>
<b>Sound Insulation</b>	<b>5dB</b>
<b>Moth protection</b>	<b>Naturally moth resistant</b>

## Care and Maintenance

It's important to note that natural plant and delicate fibre carpets are highly absorbent and should be used exclusively indoors, away from areas prone to excessive moisture, such as kitchens and bathrooms. Due to their absorbent nature, it is crucial to avoid wet shampooing or wet cleaning these carpets at all costs. If professional cleaning required, please request dry clean system. Samples should only be used as a guide to colour matching, slight colour variation possible.
